

Contributors:

Want to add material to the PTC WEB SITE?? Here's how you can help our web dude get your material out on the web site!

Documents:

The web site accepts documents in Word, .txt or HTML. We can convert MS Word files to Acrobat (e.g. .PDF) files but it helps to get documents already formatted in .PDF form.

Images:

The web site can accept and translate .JPEG, .GIF, .PNG, RAW, and many more forms. We have Adobe PHOTOSHOP to make the translation. I don't want .BIT maps or proprietary image formats because they take up too much space in transit, may incur errors in transmission, and I don't have translators for them. Any Adobe Scalable Vector Graphics are an exception.

Most images will be turned into 5x7" low resolution .jpps for the web site. They are generally small and easy to transfer and it helps us help you if your images are low resolution.

Ads:

We encourage sponsors and contributors to send us your graphics for incorporation on the web site. Owing to space and size restrictions we may TRUNCATE your Graphic for space and download considerations. Please specify in advance before hand if you DO NOT WANT YOUR GRAPHIC Truncated!

Timing and Longevity of Ads, graphics, and material: Generally, material is kept on the web site as long as it's relevant or the PTC is PAID to keep it there (e.g. ADS from paying Sponsors). The Webmaster will remove material when it is no longer relevant (example: a race flyer may be removed from the Flyers File on the Server) once the race has been executed.
